

CHECKLIST 14: Dust control

Contractor:	Date:	Consent number:	Site:
	Time:		
Construction checklist (see 'Dust control' section for more details)		Yes ✓	No ✗ (Add comments to explain)
A dust management plan has been prepared and is up to date			
Dust discharges from stockpiles are controlled			
Dust discharges from access tracks/internal roads are controlled			
Dust discharges from exposed areas are controlled			
No visible dust is observed at the site's downwind boundary			
Site road access points are regularly cleaned to remove dust that may be a nuisance to neighbours			
Specific practices:			
Water sprinkling is effective			
Water sprinkling uses wetting agents to improve efficiency			
Exposed surfaces are coated in effective soil binders to suppress dust			
Exposed surfaces are coated in crimped straw mulch to suppress dust			
Haul roads or high traffic areas are coated in effective soil binder to suppress dust			

Note: this is an on-site, self-check list for contractors to use. Keep your completed checklists to show Compliance Officers your set up, monitoring and maintenance, if requested.
